

Thessaloniki, 22<sup>nd</sup> November 2016

To whom it may concern,

TAE Aviation Academy is an Approved Training Organization in Thessaloniki, Greece.

As we decided to include a DA40 in our fleet, we contacted Mr. Hintermayer and we are happy that we did so. The professional attitude of the whole "Aircraft and more" team was more than satisfying and I believe that this is the key of their success.

During our cooperation the communication was perfect and everything was as scheduled.

Mr. Schweighofer was our "ferry pilot, he also assisted us with the documentation and answered all of our inquiries. We even had the possibility to have a demo flight with him upon arrival which was very helpful as we didn't own a DA40 in the past.

TAE team is very thankful for this cooperation and would definitely ask from "Aircraft and more" team for their help in case we have a need of buying an aircraft for our academy.

I would definitely recommend "Aircraft and more" and I can assure that their professionalism will satisfy all of their clients.

Looking forward to our future business!

Yours Sincerely,

George Theocharis  
CEO/Accountable Manager
