

Dear Gerry,

I would like to thank you for your excellent work related to the purchase of my Piper Seneca in Mai 2011. To buy an aircraft requires detailed knowledge in all areas of aircraft technical status, Airworthiness Directives, registration and after sales support. You have proven yourself better than anyone I have ever come across in this business. Again, thank you for your customer focus, honesty and willingness to assist throughout the whole transaction. Fly safe! Best regards Morten B, a happy Seneca owner.

Best regards
