Austria

August 1st, 2013

I would like to thank you for your excellent work related to the purchase of Cessna 172S.

To buy an aircraft requires detailed knowledge in all areas of aircraft technical status, Airworthiness Directives, registration and after sales support. You have proven yourself better than anyone I have ever come across in this business. Again, thank you for your customer focus, honesty and willingness to assist throughout the whole transaction.

Aircraft and More offers a great service and a professional work in the areas of consulting, acquisition, testing, licensing, supply, negotiation, transfer, training, delivery, representation by the responsible aeronautical authority etc.

Thank you for your reliability, accuracy and professionalism.

Sincerely,

**„KTA” sp. z o.o.**
