Dear Gerry,

I would like to thank you for your excellent work related to the purchase of the Cessna FR172 Reims Rocket.

To buy an used aircraft is somehow grey area for everybody. As a technical inspector and in this case as a private pilot buyer I found professionalism and positive thrust with effective communication as we talking with you about plane and details of this busines. The support at the inspection and test flight was perfect so we could make the final decision and actions without any delay. Just after signing the agreement and the payment, the plane was ferried to her new home base on the same day.

It was a pleasure to work with you and Aircraft and More.

I would have no hesitation in entering business with you and Aircraft and More again.

Thank you again Gerry,

Best Regards,

Endre Martinecz
