

Selling an aircraft is a difficult task for most owners and should be done by professionals. Gerald Hintermayr and his team at Aircraft & More are professionals for this process with many years of experience. They made an absolute perfect job and found a buyer for my aircraft in a short time.

Mr. Hintermayr keeps in mind not only the interests of the seller but also the interests of the buyer. I can therefore recommend Aircraft & More not only for selling an aircraft but also to anyone, who want to buy an aircraft.
