

Aircraft And More GmbH

We have purchased a DA42NG from Aircraft and More GmbH recently. I did find the aircraft on controller.com and loved it, unfortunately, it was DA42NG with special mission registration. To register the aircraft in our country (Japan) there were a lot of difficulties. Gerald from Aircraft and More GmbH kindly assisted and supported us from the beginning of the deal. He did arrange all documentation and labor for changing the special mission registration to a normal NG, no matter it did take several months.

Gerald is a very responsible and professional person with a lot of knowledge of these types of aircraft. I was very comfortable letting Gerald ferry the airplane from Austria to Japan. He was on time and the aircraft was super clean when My Japanese agent took over from him.

If there was another opportunity to purchase Diamond or European aircraft, I do definitely call Gerald for assistance.

Thank you, Gerald

Sincerely, from T.S.
