#### Cessna 182T purchase

In 2022 I contacted Gerald and his team asking for support with the purchase of a factory new Cessna 182 including the ferry flight to Germany. He explained everything very detailed and offered a more or less complete service package. Unfortunately the delivery time of factory new Cessna 182 continued to increase and the urge for a Cessna 182 grew...

A few weeks later by coincidence Gerald offered a nearly new Cessna 182T with German registration for sale. After promptly sharing all the necessary information including detailed photos he even offered to transfer the plane to an airport of my choice for an extensive prebuy check. He even negotiated with the seller which minor findings should be taken care of and after everything was agreed on he presented a professional purchase contract ready for signing.

Even after the purchase the support continued and Gerald's team took care of all the paper work and communication with the authorities. It has never been so easy to purchase a plane.

I would like to thank Gerald and his team very much. The organization and support in all phases, starting from the first interest to the end, were excellent!
