Beech Bonanza G36  
D-EWRI

I sold my Beech Bonanza G36 to the USA through Aircraft and More. The entire process, from the decision to sell to the acquisition and processing of the purchase contract and transfer/handover to the USA, was highly professional and took less than a month in total.

The highlight was the overflight/handover from Hamburg to Memphis Tennessee, which I was allowed to attend personally.

In 5 days we flew almost 6000 miles with the Beech Bonanza. We didn't have such good conditions at times, but still I never had *the feeling that something could happen. Every flight was well prepared and safety was always the priority. Gerald's track and weather knowledge an experience is second to none.*

The next time I buy an aircraft, I will definitely use the services of Aircraft and More.

Dear Gerald

Many thanks again for everything

  
Thomas Nielsen
